

Annual Meeting and Postgraduate Course

Barcelona, Spain
September 13-17

CIRSE 2025

TIMETABLE

PIONEERING PROGRESS

Cardiovascular and Interventional Radiological Society of Europe

TIMETABLE
Saturday, September 13

CIRSE 2025

08:00					09:00					10:00					11:00					12:00					13:00					14:00					15:00					16:00					17:00					18:00					19:00				
FS 111 Technical questions for endovascular fem-pop disease treatment Room 112					MPJ 121 Dealing with the diabetic foot Room 112					SP 131 FIRST@CIRSE – First data release on vascular IR trials and studies Auditorium 1					MPI 141 Meet the PI: cutting edge trials in IO News on Stage					OP 151 Opening and Awards Ceremony Auditorium 1					ERT 161 Proper preparation of the femoral-popliteal arterial segment Room 112					ERT 171 Below the knee vessel prep: what really works? Room 112																													
FS 112 Intrahepatic cholangio-carcinoma – what can you offer? Room 115					FS 122 Colorectal cancer metastatic disease: burning issues Room 117					MPJ 132 MSK Room 112					Satellite Symposia										ERT 162 Colorectal cancer: liver metastatic disease Room 117					FS 172 Focal prostate cancer therapy Room 117																													
FC 113 Consent: making patient information understandable Room 113					FS 123 Managing your life as an IR Room 115					FC 133 So you are an IR – but are you really a clinician? Room 115					FS 164 Post-thrombotic deep venous occlusions: current challenges, future promise Auditorium 2										ETF 174 Interdisciplinary collaboration: the future of IR News on Stage																																		
FS 114 Ablative treatments for benign conditions Auditorium 2					FS 124 Biliary intervention Auditorium 2					CBD 134 Pelvic venous: how can one disease need so many treatment approaches? Room 117					WS 165 MSK embolization Room 116										SP 175 MSK embolization new frontiers Room 114																																		
ST 115 Introducing IR Room 116					FS 125 MSK Auditorium 1					FC 135 From thyroid to haemorrhoids Auditorium 2					Satellite Symposia					SP 166 – Outcomes of new devices in PAD Room 118					SP 176 Liver tumour board Room 118																																		
					IRT 126 Future technologies in IR Room 113					WIR 136 Women in IR Room 116										SP 167 – Selective treatments for ocular and bone malignancies Room 114					SP 177 Dialysis & central venous intervention Room 119																																		
																				Satellite Symposia																																							
HGI 11.1 Hands-on GI lab Hands-on Room 1															HGI 14.1 Hands-on GI lab for students Hands-on Room 1					HGI 16.1 Hands-on GI lab Hands-on Room 1																																							
HDT-VT 11.2 Venous thrombectomy / DVT-PE Hands-on Room 2										ST-HDT EMT 13.1 Embolization: coils & plugs for students Hands-on Room 3					HDT-VT 14.2 Venous thrombectomy / DVT-PE Hands-on Room 2					HDT-VV 16.2 Varicose veins Hands-on Room 2																																							
HDT-EMT 11.3 Embolization: coils & plugs Hands-on Room 3															HDT-EMT 14.3 Embolization: coils & plugs Hands-on Room 3					HDT-EMT 16.3 Embolization: particulate agents Hands-on Room 3																																							
HDT-VAT 11.4 Vertebral augmentation Hands-on Room 4															HDT-VAT 14.4 Vertebral augmentation Hands-on Room 4					HDT-CT 16.4 CBCT and image-guided fusion Hands-on Room 4																																							
SIM 1.1 Peripheral arterial disease Simulator Gallery					SIM 1.2 Peripheral arterial disease Simulator Gallery					SIM 1.3 Peripheral arterial disease Simulator Gallery					SIM 1.4 Peripheral arterial disease Simulator Gallery					SIM 1.5 Peripheral arterial disease Simulator Gallery					ST-SIM 1.6 Peripheral arterial disease – Simulation training for students Simulator Gallery																																		

TIMETABLE
Sunday, September 14

CIRSE 2025

08:00					09:00					10:00					11:00					12:00					13:00					14:00					15:00					16:00					17:00					18:00					19:00																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																				
CS 211 Controversies in the management of complications after paediatric liver transplantation Room 112					PAED					VL 221 Advanced arterial video learning Auditorium 1					CM 231 CIRSE meets EAPCI: renal denervation Room 112					MPI 241 Meet the PI: embolization and more News on Stage					FIQ 251 Film Interpretation Quiz Auditorium 1					ERT 261 Aorto-iliac occlusive disease Room 112					FS 271 Drug-coated balloon in the fem-pop segment: what is the evidence? Room 112																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																								
FS 212 Breast Auditorium 2					FS 222 Ablative therapies for HCC and liver mets Auditorium 2					FS 223 Portal hypertension in children Room 116					PAED					Satellite Symposia					Satellite Symposia					HTS 252 Pulmonary embolism Auditorium 1					FS 262 – Interventional immuno-oncology: bridging the gap between IR and cancer immunotherapy Room 117					FC 272 Biopsies and drainage in children Room 116					PAED																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																														
FC 213 FC 213 – Acute lower extremity DVT Auditorium 1					FC 214 Embolization of intracranial aneurysm: learning from the experts Room 115					CS 224 Controversies in carotid intervention Room 115					ERT 225 Cryoneurolysis Room 117					MPJ 226 Prostate artery embolization Room 112					IRT 227 Innovation in IR Room 113					HGI 21.1 Hands-on GI lab Hands-on Room 1					HDT-VV 21.2 Varicose veins Hands-on Room 2					HDT-EMT 21.3 Embolization: particulate agents Hands-on Room 3					HDT-CT 21.4 CBCT and image-guided fusion Hands-on Room 4					SED 22.5 Safe sedation application during IR procedures – basic Hands-on Room 5					SIM 2.1 Prostatic artery embolization Simulator Gallery					SIM 2.2 Prostatic artery embolization Simulator Gallery					SIM 2.3 Prostatic artery embolization Simulator Gallery					SIM 2.4 Prostatic artery embolization Simulator Gallery					SIM 2.5 Prostatic artery embolization Simulator Gallery					ST-SIM 2.6 Prostatic artery embolization – Simulation training for students Simulator Gallery																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																											
FS 215 Pain management Room 117					MSK					ST-HDT EMT 23.1 Varicose veins for students Hands-on Room 2					ST-HDT EMT 23.2 Embolization: liquid agents for students Hands-on Room 3					HGI 24.1 Hands-on GI lab for students Hands-on Room 1					HDT-CLP 24.2 Central lines and ports Hands-on Room 2					HDT-EMT 24.3 Embolization: liquid agents Hands-on Room 3					HDT-ST 24.4 Stroke thrombectomy Hands-on Room 4					SED 24.5 Safe sedation application during IR procedures – basic Hands-on Room 5					HDT-CLP 26.1 Central lines and ports Hands-on Room 2					HDT-EMT 26.2 Embolization: liquid agents Hands-on Room 3					HDT-ST 26.3 Stroke thrombectomy Hands-on Room 4					SED 26.4 Safe sedation application during IR procedures – advanced Hands-on Room 5

FS 311 Unsolved issues in standard EVAR Auditorium 2 IDEAS	VL 321 Complex aorto-iliac aneurysm repair Auditorium 2 IDEAS	CM 331 CIRSE meets SIOPE: the future of paediatric oncology Room 116 PAED		ERT 351 Acute type B dissection Auditorium 2 IDEAS	ERT 361 – Thoraco-abdominal endovascular repair Auditorium 2 IDEAS	CBD 371 Amazing bail-outs in complex EVAR Auditorium 2 IDEAS
FC 312 Acute limb ischaemia Auditorium 1	CS 322 Supraaortic interventions Auditorium 1			HL 352 Andreas Gruentzig Lecture: Breaking barriers in breast cancer: cryoablation as the ultimate expression of IO's de-escalation philosophy Auditorium 1	FC 362 – Arterio-venous malformations in children – how they can be managed by IR Room 116 PAED	MPJ 372 Mesenteric ischaemia Room 112
CS 313 Controversies in IO Room 117	FS 323 HCC: what's new in 2025 Room 112	Satellite Symposia	Satellite Symposia	HTS 353 Systemic therapies and interventional therapies for HCC: evidence and future prospects Auditorium 1	ERT 363 – CRC liver thermal ablation trials: is this really a paradigm shift? Room 117	ETF 373 Women trainees in IR News on Stage
FS 314 Complex superior/inferior vena cava reconstruction Room 112	VL 324 Masters of the venous universe Room 117	IRT 332 Next Generation IVUS Case Competition News on Stage			FS 364 – Let's take a new look at female pelvic venous disease Room 112	WS 374 Adrenal vein sampling Room 116
FS 315 Complications in PIR: how I manage them Room 116 PAED	CBD 325 IR in teenagers: does the treatment approach differ between adult and paediatric patients? Room 116 PAED			Satellite Symposia	FS 365 – EBIR preparation for candidates Room 114	FS 375 – Dealing with complications Room 115
	IRT 326 Therapies and treatments Room 113			ST 356 Students on stage News on Stage	SP 366 – Visceral artery delights – the devil is in the detail! Room 119	SP 376 – Focused therapies for challenging tumours Room 119
HDT-VS 31.1 Venous stenting practice Hands-on Room 2				PC 34.1 – IDEAS practical course: Standard EVAR: indication and adjuncts Hands-on Room 1 IDEAS	SP 367 – Prostate artery embolization: a modern IR pillar Room 118	SP 377 – Novel upper gastro-intestinal and hepato-biliary interventions Room 118
HDT-AA 31.2 Arterial atherectomy Hands-on Room 4				HDT-VS 34.2 Venous stenting practice Hands-on Room 2	SP 368 – Catheter treatments in pulmonary embolism and deep vein thrombosis Room 113	SP 378 Venous miscellany Room 114
HDT-TA 31.3 Tumour ablation: heat-based (MWA, RFA) Hands-on Room 3		ST-HDT TA 33.1 Tumour ablation: heat-based for students Hands-on Room 3	HDT-AA 34.3 Arterial atherectomy Hands-on Room 4	HDT-TA 34.4 Tumour ablation: heat-based (MWA, RFA) Hands-on Room 3	Satellite Symposia	GA 379 General assembly Room 113
	SED 32.1 Safe sedation application during IR procedures – advanced Hands-on Room 5			SED 34.5 Safe sedation application during IR procedures – basic Hands-on Room 5	PC 36.1 – IDEAS practical course: TEVAR with single branch Hands-on Room 1 IDEAS	
SIM 3.1 Acute and chronic mesenteric ischaemia Simulator Gallery	SIM 3.2 Acute and chronic mesenteric ischaemia Simulator Gallery	SIM 3.3 Acute and chronic mesenteric ischaemia Simulator Gallery		SIM 3.4 Acute and chronic mesenteric ischaemia Simulator Gallery	HDT-PAF 36.2 Percutaneous arteriovenous fistulas: the way forward Hands-on Room 2	
				SIM 3.5 Acute and chronic mesenteric ischaemia Simulator Gallery	HDT-CD 36.3 A closer look at closure devices Hands-on Room 4	
					HDT-TA 36.4 – Tumour ablation: non-thermal (IRE, electrochemotherapy) Hands-on Room 3	
					SED 36.5 – Safe sedation application during IR procedures – advanced (Propofol) Hands-on Room 5	
						ST-SIM 3.6 – Acute and chronic mesenteric ischaemia – Simulation training for students Simulator Gallery
