

Annual Meeting and Postgraduate Course

Barcelona, Spain
September 13-17

CIRSE 2025

TIMETABLE

PIONEERING PROGRESS

Cardiovascular and Interventional Radiological Society of Europe

08:00															09:00															10:00															11:00															12:00															13:00															14:00															15:00															16:00															17:00															18:00															19:00														
FS 111 Technical questions for endovascular fem-pop disease treatment Room 112															MPJ 121 Dealing with the diabetic foot Room 112															SP 131 FIRST@CIRSE – First data release on vascular IR trials and studies Auditorium 1															MPI 141 Meet the PI: cutting edge trials in IO News on Stage															OP 151 Opening and Awards Ceremony Auditorium 1															ERT 161 Proper preparation of the femoral-popliteal arterial segment Room 112															ERT 171 Below the knee vessel prep: what really works? Room 112																																																																																									
FS 112 Intrahepatic cholangio-carcinoma – what can you offer? Room 115															FS 122 Colorectal cancer metastatic disease: burning issues Room 117															MPJ 132 MSK Room 112															Satellite Symposia																														ERT 162 Colorectal cancer: liver metastatic disease Room 117															FS 172 Focal prostate cancer therapy Room 117																																																																																									
FC 113 Consent: making patient information understandable Room 113															FS 123 Managing your life as an IR Room 115															FC 133 So you are an IR – but are you really a clinician? Room 115															ERT 163 Trial updates on stroke treatments Room 115																														FS 173 Carotid artery stenting in acute stroke situations Room 115																																																																																																								
FS 114 Ablative treatments for benign conditions Auditorium 2															FS 124 Biliary intervention Auditorium 2															CBD 134 Pelvic venous: how can one disease need so many treatment approaches? Room 117															FS 164 Post-thrombotic deep venous occlusions: current challenges, future promise Auditorium 2																														ETF 174 Interdisciplinary collaboration: the future of IR News on Stage																																																																																																								
ST 115 Introducing IR Room 116															FS 125 MSK Auditorium 1															FC 135 From thyroid to haemorrhoids Auditorium 2																														WS 165 MSK embolization Room 116															SP 175 MSK embolization new frontiers Room 114																																																																																																								
															IRT 126 Future technologies in IR Room 113															WIR 136 Women in IR Room 116																														SP 166 – Outcomes of new devices in PAD Room 118															SP 176 Liver tumour board Room 118																																																																																																								
																																																												SP 167 – Selective treatments for ocular and bone malignancies Room 114															SP 177 Dialysis & central venous intervention Room 119																																																																																																								
																																																												Satellite Symposia																																																																																																																							
HGI 11.1 Hands-on GI lab Hands-on Room 1																																													HGI 14.1 Hands-on GI lab for students Hands-on Room 1																														HGI 16.1 Hands-on GI lab Hands-on Room 1																																																																																																								
HDT-VT 11.2 Venous thrombectomy / DVT-PE Hands-on Room 2																																													HDT-VT 14.2 Venous thrombectomy / DVT-PE Hands-on Room 2																														HDT-VV 16.2 Varicose veins Hands-on Room 2																																																																																																								
HDT-EMT 11.3 Embolization: coils & plugs Hands-on Room 3																														ST-HDT EMT 13.1 Embolization: coils & plugs for students Hands-on Room 3																														HDT-EMT 14.3 Embolization: coils & plugs Hands-on Room 3																														HDT-EMT 16.3 Embolization: particulate agents Hands-on Room 3																																																																																									
HDT-VAT 11.4 Vertebral augmentation Hands-on Room 4																																													HDT-VAT 14.4 Vertebral augmentation Hands-on Room 4																														HDT-CT 16.4 CBCT and image-guided fusion Hands-on Room 4																																																																																																								
SIM 1.1 Peripheral arterial disease Simulator Gallery															SIM 1.2 Peripheral arterial disease Simulator Gallery															SIM 1.3 Peripheral arterial disease Simulator Gallery																														SIM 1.4 Peripheral arterial disease Simulator Gallery															SIM 1.5 Peripheral arterial disease Simulator Gallery															ST-SIM 1.6 Peripheral arterial disease – Simulation training for students Simulator Gallery																																																																																									

TIMETABLE
Sunday, September 14

CIRSE 2025

08:00					09:00					10:00					11:00					12:00					13:00					14:00					15:00					16:00					17:00					18:00					19:00				
CS 211 Controversies in the management of complications after paediatric liver transplantation Room 112					PAED					VL 221 Advanced arterial video learning Auditorium 1					CM 231 CIRSE meets EAPCI: renal denervation Room 112										MPI 241 Meet the PI: embolization and more News on Stage										FIQ 251 Film Interpretation Quiz Auditorium 1					ERT 261 Aorto-iliac occlusive disease Room 112					FS 271 Drug-coated balloon in the fem-pop segment: what is the evidence? Room 112														
FS 212 Breast Auditorium 2					FS 222 Ablative therapies for HCC and liver mets Auditorium 2					FS 223 Portal hypertension in children Room 116					PAED					Satellite Symposia					Satellite Symposia					HTS 252 Pulmonary embolism Auditorium 1					FS 262 – Interventional immuno-oncology: bridging the gap between IR and cancer immunotherapy Room 117					FC 272 Biopsies and drainage in children Room 116					PAED														
FC 213 FC 213 – Acute lower extremity DVT Auditorium 1					FC 214 Embolization of intracranial aneurysm: learning from the experts Room 115					CS 224 Controversies in carotid intervention Room 115															Satellite Symposia										AI 263 – Amazing Interventions Auditorium 1					WS 273 Central venous access Auditorium 2																			
FS 215 Pain management Room 117					ERT 225 Cryoneurolysis Room 117					MPJ 226 Prostate artery embolization Room 112																									FS 264 – A new kid on the block: middle meningeal artery embolization for chronic subdural haematoma Auditorium 2					ETF 274 Work-life balance in IR News on Stage																			
					MSK					IRT 227 Innovation in IR Room 113																									FS 265 – Life-saving IR in neonates and infants Room 116					PAED					FS 275 Women's health Room 117														
																																			SP 266 – Cutting edge therapies in renal and prostatic malignancy Room 119					SP 276 Advanced imaging guidance in IO Room 119																			
HGI 21.1 Hands-on GI lab Hands-on Room 1										ST-HDT EMT 23.1 Varicose veins for students Hands-on Room 2															HGI 24.1 Hands-on GI lab for students Hands-on Room 1										SP 267 – IR Management – let's shift from passive to active! Room 118					SP 277 – IR Management – let's shift from passive to active! Room 118																			
HDT-VV 21.2 Varicose veins Hands-on Room 2																									HDT-CLP 24.2 Central lines and ports Hands-on Room 2										SP 268 – Are there any limits to MSK interventions? Room 114					SP 278 – EVAR, FEVAR and beyond! Room 114																			
HDT-EMT 21.3 Embolization: particulate agents Hands-on Room 3										ST-HDT EMT 23.2 Embolization: liquid agents for students Hands-on Room 3															HDT-EMT 24.3 Embolization: liquid agents Hands-on Room 3										Satellite Symposia					HDT-CLP 26.1 Central lines and ports Hands-on Room 2					Satellite Symposia														
HDT-CT 21.4 CBCT and image-guided fusion Hands-on Room 4																									HDT-ST 24.4 Stroke thrombectomy Hands-on Room 4															HDT-EMT 26.2 Embolization: liquid agents Hands-on Room 3					HDT-ST 26.3 Stroke thrombectomy Hands-on Room 4														
										SED 22.5 Safe sedation application during IR procedures – basic Hands-on Room 5															SED 24.5 Safe sedation application during IR procedures – basic Hands-on Room 5															SED 26.4 Safe sedation application during IR procedures – advanced Hands-on Room 5																			
SIM 2.1 Prostatic artery embolization Simulator Gallery					SIM 2.2 Prostatic artery embolization Simulator Gallery					SIM 2.3 Prostatic artery embolization Simulator Gallery																				SIM 2.4 Prostatic artery embolization Simulator Gallery					SIM 2.5 Prostatic artery embolization Simulator Gallery					ST-SIM 2.6 Prostatic artery embolization – Simulation training for students Simulator Gallery																			

TIMETABLE
Monday, September 15

CIRSE 2025

08:00					09:00					10:00					11:00					12:00					13:00					14:00					15:00					16:00					17:00					18:00					19:00				
FS 311 Unsolved issues in standard EVAR Auditorium 2					VL 321 Complex aorto-iliac aneurysm repair Auditorium 2					CM 331 CIRSE meets SIOPE: the future of paediatric oncology Room 116															ERT 351 Acute type B dissection Auditorium 2					ERT 361 – Thoraco-abdominal endovascular repair Auditorium 2					CBD 371 Amazing bail-outs in complex EVAR Auditorium 2																								
FC 312 Acute limb ischaemia Auditorium 1					CS 322 Supraaortic interventions Auditorium 1																				HL 352 Andreas Gruentzig Lecture: Breaking barriers in breast cancer: cryoablation as the ultimate expression of IO's de-escalation philosophy Auditorium 1					HTS 353 Systemic therapies and interventional therapies for HCC: evidence and future prospects Auditorium 1					FC 362 – Arterio-venous malformations in children – how they can be managed by IR Room 116					MPJ 372 Mesenteric ischaemia Room 112																			
CS 313 Controversies in IO Room 117					FS 323 HCC: what's new in 2025 Room 112					Satellite Symposia					Satellite Symposia															ERT 363 – CRC liver thermal ablation trials: is this really a paradigm shift? Room 117					ETF 373 Women trainees in IR News on Stage																								
FS 314 Complex superior/inferior vena cava reconstruction Room 112					VL 324 Masters of the venous universe Room 117					IRT 332 Next Generation IVUS Case Competition News on Stage																				FS 364 – Let's take a new look at female pelvic venous disease Room 112					WS 374 Adrenal vein sampling Room 116																								
FS 315 Complications in PIR: how I manage them Room 116					CBD 325 IR in teenagers: does the treatment approach differ between adult and paediatric patients? Room 116																				Satellite Symposia					SP 366 – Visceral artery delights – the devil is in the detail! Room 119					SP 376 – Focused therapies for challenging tumours Room 119																								
					IRT 326 Therapies and treatments Room 113																				ST 356 Students on stage News on Stage					SP 367 – Prostate artery embolization: a modern IR pillar Room 118					SP 377 – Novel upper gastro-intestinal and hepato-biliary interventions Room 118																								
HDT-VS 31.1 Venous stenting practice Hands-on Room 2																				PC 34.1 – IDEAS practical course: Standard EVAR: indication and adjuncts Hands-on Room 1										Satellite Symposia					SP 368 – Catheter treatments in pulmonary embolism and deep vein thrombosis Room 113					SP 378 Venous miscellany Room 114																			
HDT-AA 31.2 Arterial atherectomy Hands-on Room 4																				HDT-VS 34.2 Venous stenting practice Hands-on Room 2										PC 36.1 – IDEAS practical course: TEVAR with single branch Hands-on Room 1																													
HDT-TA 31.3 Tumour ablation: heat-based (MWA, RFA) Hands-on Room 3										ST-HDT TA 33.1 Tumour ablation: heat-based for students Hands-on Room 3										HDT-AA 34.3 Arterial atherectomy Hands-on Room 4										HDT-PAF 36.2 Percutaneous arteriovenous fistulas: the way forward Hands-on Room 2																													
																				HDT-TA 34.4 Tumour ablation: heat-based (MWA, RFA) Hands-on Room 3										HDT-CD 36.3 A closer look at closure devices Hands-on Room 4																													
					SED 32.1 Safe sedation application during IR procedures – advanced Hands-on Room 5															SED 34.5 Safe sedation application during IR procedures – basic Hands-on Room 5										HDT-TA 36.4 – Tumour ablation: non-thermal (IRE, electrochemotherapy) Hands-on Room 3																													
SIM 3.1 Acute and chronic mesenteric ischaemia Simulator Gallery					SIM 3.2 Acute and chronic mesenteric ischaemia Simulator Gallery					SIM 3.3 Acute and chronic mesenteric ischaemia Simulator Gallery										SIM 3.4 Acute and chronic mesenteric ischaemia Simulator Gallery					SIM 3.5 Acute and chronic mesenteric ischaemia Simulator Gallery					ST-SIM 3.6 – Acute and chronic mesenteric ischaemia – Simulation training for students Simulator Gallery																													
08:00					09:00					10:00					11:00					12:00					13:00					14:00					15:00					16:00					17:00					18:00					19:00				

TIMETABLE
Tuesday, September 16

CIRSE 2025

08:00															09:00															10:00															11:00															12:00															13:00															14:00															15:00															16:00															17:00															18:00															19:00														
FS 411 Ongoing issues in the aortic arch Auditorium 2															CBD 421 Addressing aorto-iliac ruptures Auditorium 2															FS 431 Endoleaks after EVAR Auditorium 2																																													HTS 452 Breaking the limits in the aortic field Auditorium 2															ERT 461 Do the results justify the use of modified EVAR? Auditorium 2															CBD 471 My nightmare aortic endovascular case Auditorium 2																																																																										
FC 412 Accurate arterial access Auditorium 1															FS 422 Bioresorbable scaffolds in tibial arteries Room 112															FS 432 – Erectile dysfunction: diagnostic work-up and endo-vascular treatment Room 112																																													HTS 453 Practice building in interventional radiology Auditorium 1															FS 462 Benign liver lesions Room 116															ETF 472 Developing IR News on Stage																																																																										
FS 413 Hot topics in lung ablation Room 117															CBD 423 Lung ablation: real life hard-core complex cases Room 117															MPJ 433 Neuroendocrine imaging and intervention Room 117																																																												ERT 463 The rise of the machines Room 117															WS 473 Radioembolization Room 117																																																																										
FC 414 Dialysis dilemmas Room 112															MPJ 424 Pulmonary embolism: let's get this right first time! Auditorium 1															CBD 434 – Pulmonary embolism: interventional strategy and technical aspects Auditorium 1																																																												FS 464 Acute DVT Room 112															MPJ 474 Acute upper extremity DVT Room 112																																																																										
FS 415 Percutaneous thyroid interventions Room 116															ERT 425 – Interventional radiology and diagnostic radiology: is it time for a velvet divorce? Room 115															ERT 435 Invention for innovation Room 116																																																												FS 465 Maximise the value of IR time Room 114															SP 475 – What's hot in peripheral arterial intervention? Room 114																																																																										
															IRT 426 Complications during training: a case-based session Room 113															MPJ 436 IRs need to be involved in trauma treatment Room 115																																																												SP 466 FIRST@CIRSE – First data release on various IR trials and studies Room 113															SP 476 – Precision and technical expertise in UFE Room 118																																																																										
																																																																																																									SP 477 – Portal venous intervention Room 119																																																																										
HDT-CD 41.1 A closer look at closure devices Hands-on Room 4																														HDT-AT 42.1 Arterial thrombectomy Hands-on Room 4																																																																											HDT-MT 46.1 Arterial thrombectomy Hands-on Room 4																																																																										
HDT-TA 41.2 Tumour ablation: cold-based Hands-on Room 3																														ST-HDT TA 43.1 Tumour ablation: cold-based for students Hands-on Room 3																																																																																																																																																					
HDT-PAF 41.3 Percutaneous arteriovenous fistulas: the way forward Hands-on Room 2																																																																																																																																																																																			
HDT-NB 41.4 Nerve blocks and neurolysis Hands-on Room 5																																																																																																																																																																																			
SIM 4.1 Uterine artery embolization Simulator Gallery															SIM 4.2 Uterine artery embolization Simulator Gallery															SIM 4.3 Uterine artery embolization Simulator Gallery																																																																											SIM 4.4 Uterine artery embolization Simulator Gallery															SIM 4.5 Uterine artery embolization Simulator Gallery															ST-SIM 4.6 Uterine artery embolization – Simulation training for students Simulator Gallery
