

BREAKING BARRIERS – EXPANDING CARE

TIMETABLE

September 5-9
Copenhagen, Denmark

CIRSE 2026

Cardiovascular and Interventional Radiological Society of Europe

TIMETABLE
Saturday, September 5

CIRSE 2026

08:00					09:00					10:00					11:00					12:00					13:00					14:00					15:00					16:00					17:00					18:00					19:00				
FS 111 Crossing complex arterial occlusions Auditorium 2					CS 121 Bioresorbable scaffolds for lower limb PAD – deep dive Auditorium 2					SP 131 FIRST@CIRSE: first data release on arterial and venous IR studies Auditorium 2					MPI 141 Meet the principal investigator 1 News on Stage					Opening and Awards Ceremony Auditorium 1					FC 161 – Modern management of aorto-iliac occlusive disease Auditorium 2					FS 171 – Renal artery interventions in resistant hypertension Auditorium 2																													
FS 112 Liver tumours: TARE made easy Auditorium 3					FS 122 TACE: the role in 2026 Auditorium 3					MPJ 132 Redefining deescalation in breast cancer Auditorium 3					Satellite Symposia										FC 162 – Renal cancer Auditorium 3					FS 172 – Prostate cancer Auditorium 3																													
FS 113 Pulmonary embolism interventions Auditorium 15					FS 123 What's new in pulmonary embolism trials? Auditorium 15					VL 133 Venous: learning from the masters Auditorium 15															CS 163 Venous thoracic outlet syndrome Auditorium 15					FS 173 – Post-thrombotic venous occlusions: what's new and what's coming down the track Auditorium 15																													
FS 114 Female pelvic venous disease Auditorium 10					ERT 124 Gynaecological embolization Auditorium 10					FS 134 Thyroid: benign and malignant tumours Auditorium 11															BTL 164 – Percutaneous ablation Room 20					ETF 174 – Communications in IR News on Stage																													
ST 115 Introducing IR Auditorium 11					ERT 125 Day-care interventional radiology unit: what's changing? Auditorium 12					ERT 135 Complications: dealing with the aftermath Auditorium 12															CBD 165 Posttransplant issues Auditorium 10					SP 175 Femoropopliteal Room 18																													
					IRT 126 IR beyond interventions Auditorium 11					WIR 136 Navigating the evolving IR workforce Auditorium 10															SP 166 Advancements in male embolization Room 18					SP 176 – Non-thermal ablation Room 19																													
																									SP 167 – Intra-arterial liver therapies Room 19					SP 177 Pain management and biopsy Room 20																													
																									NA 169b – Global IR summit Auditorium 11																																		
					HGI 12.1 Hands-on GI lab Hands-on Room 1										HGI 14.1 Hands-on GI lab for students Hands-on Room 1										Satellite Symposium					FS 169 Clinical applications of ethiodized-oil emulsion in MSK embolization Auditorium 12																													
					HDT-VT 12.2 Venous thrombectomy / DVT-PE Hands-on Room 2										HDT-VT 14.2 Venous thrombectomy / DVT-PE Hands-on Room 2										HDT-VV 16.2 Varicose veins Hands-on Room 2																																		
					HDT-EMT 12.3 Embolization: coils & plugs Hands-on Room 3					ST-HDT EMT 13.3 Embolization: coils & plugs for students Hands-on Room 3					HDT-EMT 14.3 Embolization: coils & plugs Hands-on Room 3										HDT-EMT 16.3 Embolization: liquid agents Hands-on Room 3																																		
					HDT-VAT 12.4 Vertebral augmentation Hands-on Room 4										HDT-VAT 14.4 Vertebral augmentation Hands-on Room 4										HDT-CT 16.4 CBCT and image-guided fusion Hands-on Room 4																																		
					SED 12.5 Safe sedation application during IR procedures – basic Hands-on Room 5										SED 14.5 Safe sedation application during IR procedures – basic Hands-on Room 5										SED 16.5 Safe sedation application during IR procedures – advanced Hands-on Room 5																																		
					SIM 1.1 Acute and chronic mesenteric ischaemia Simulator Gallery					SIM 1.2 Acute and chronic mesenteric ischaemia Simulator Gallery										SIM 1.3 Acute and chronic mesenteric ischaemia Simulator Gallery					SIM 1.4 Acute and chronic mesenteric ischaemia Simulator Gallery					ST-SIM 1.5 – Acute and chronic mesenteric ischaemia – Simulation training for students Simulator Gallery																													

CIRSE 2026

08:00															09:00															10:00															11:00															12:00															13:00															14:00															15:00															16:00															17:00															18:00															19:00														
BTL 211 Visceral aneurysms Room 20															MDT 221 Vascular MDT Auditorium 1															CM 231 – CIRSE meets ESVM: Controversy discussions and current knowledge of peripheral interventions Auditorium 12															MC 241 Meet the CVIR authors 1 – Venous interventions News on Stage															FIQ 251 Film Interpretation Quiz Auditorium 1															FC 261 Modern management of femoropopliteal occlusive disease Auditorium 2															CS 271 CLTI: advanced techniques Auditorium 2																																																																																									
FS 212 Lung ablation Auditorium 15															CS 222 Local cure for lung tumours Auditorium 15															Satellite Symposia															Satellite Symposia															HTS 252 Standardizing complications' reporting Auditorium 1															ERT 262 Pancreatico-biliary cancer Auditorium 11															FS 272 Desmoid tumours Auditorium 3																																																																																									
FS 213 Trauma management Auditorium 2															CS 223 – Prostate artery embolization: technical update and consensus Auditorium 2															Satellite Symposia															Satellite Symposia															PAED FS 263 – Management of vascular anomalies in children Auditorium 10															BTL 273 Biliary disease Room 20																																																																																																								
FC 214 Dialysis dilemmas Auditorium 3															ERT 224 Venous stent maintenance: what is it, and why does it matter? Auditorium 3															Satellite Symposia															Satellite Symposia															CS 264 Acute lower extremity DVT Auditorium 15															CS 274 – Male varicocele treatment Auditorium 15																																																																																																								
FS 215 Percutaneous ablation for benign indications Auditorium 10															ERT 225 – Acute mesenteric- portal vein thrombosis Auditorium 12															Satellite Symposia															Satellite Symposia															AI 265 – Amazing Interventions Auditorium 1															ETF 275 – New frontiers in IR News on Stage																																																																																																								
FS 216 – CIRSE vision: Shaping the future of IR? Auditorium 11															FS 226 – So you want to learn about paediatric IR? Auditorium 10															Satellite Symposia															Satellite Symposia															SP 266 New developments in MSK embolization Room 18															SP 276 Abdominal and thoracic aortic intervention Room 18																																																																																																								
SP 217 FIRST@CIRSE: first data release on interventional oncology studies Auditorium 12															IRT 227 – Future treatments and innovations in IR Auditorium 11															Satellite Symposia															Satellite Symposia															SP 267 – Thermal ablation Room 19															SP 277 – Urogenital and pancreas Auditorium 12																																																																																																								
ST-HDT VV 21.1 Varicose veins for students Hands-on Room 2															HGI 22.1 Hands-on GI lab Hands-on Room 1															HGI 24.1 Hands-on GI lab for students Hands-on Room 1															HGI 24.1 Hands-on GI lab for students Hands-on Room 1															Satellite Symposium															Satellite Symposium																																																																																																								
ST-HDT EMT 21.2 Embolization: liquid agents for students Hands-on Room 3															HDT-VV 22.2 Varicose veins Hands-on Room 2															HDT-CLP 24.2 Central lines and ports Hands-on Room 2															HDT-CLP 24.2 Central lines and ports Hands-on Room 2															HDT-EMT 24.3 Embolization: particulate agents Hands-on Room 3															HDT-EMT 26.2 Embolization: particulate agents Hands-on Room 3																																																																																																								
															HDT-EMT 22.3 Embolization: liquid agents Hands-on Room 3															HDT-EMT 24.3 Embolization: particulate agents Hands-on Room 3															HDT-EMT 24.3 Embolization: particulate agents Hands-on Room 3															HDT-ST 26.3 Stroke thrombectomy Hands-on Room 4															HDT-ST 26.3 Stroke thrombectomy Hands-on Room 4																																																																																																								
															HDT-CT 22.4 CBCT and image-guided fusion Hands-on Room 4															HDT-ST 24.4 Stroke thrombectomy Hands-on Room 4															HDT-ST 24.4 Stroke thrombectomy Hands-on Room 4															HDT-ST 26.3 Stroke thrombectomy Hands-on Room 4															HDT-ST 26.3 Stroke thrombectomy Hands-on Room 4																																																																																																								
															SED 22.5 Safe sedation application during IR procedures – basic Hands-on Room 5															SED 24.5 Safe sedation application during IR procedures – basic Hands-on Room 5															SED 24.5 Safe sedation application during IR procedures – basic Hands-on Room 5															SED 26.4 – Safe sedation application during IR procedures – advanced Hands-on Room 5															SED 26.4 – Safe sedation application during IR procedures – advanced Hands-on Room 5																																																																																																								
SIM 2.1 Prostatic artery embolization Simulator Gallery															SIM 2.2 Prostatic artery embolization Simulator Gallery															SIM 2.3 Prostatic artery embolization Simulator Gallery															SIM 2.4 Prostatic artery embolization Simulator Gallery															ST-SIM 2.5 – Prostatic artery embolization – Simulation training for students Simulator Gallery															ST-SIM 2.5 – Prostatic artery embolization – Simulation training for students Simulator Gallery
